

BUILDER APPLICATION FOR ESCUD

NAME: _____

CONTACT NUMBER: _____

COMPANY: _____

EMAIL: _____

I understand and agree that I will supply ESCUD with an application, floor plans and tap fee payment for each and every lot.

I understand and agree that once the water tap is installed and meter is set fees for water usage will begin immediately and must be paid monthly to avoid disconnection of water.

I understand and agree that connecting to an ESCUD waterline without approval will result in fines/fees and possible loss and denial of Will Serve.

I understand and agree that if building a home to sell it is my responsibility to inform ESCUD of sell of property and provide the Buyer information and or the Title/Closing company.

I understand and agree that all sewer pumps/tanks/kits must meet ESCUD approval and agree to NOT install any type of grinder pump without ESCUD approval. All sewer pumps in Off Sites should be water only. Grinder pump approvals will be given on English Mountain only (if site is suitable for grinder)

I understand and agree that I will contact ESCUD for sewer pump/tank and line inspection BEFORE covering water/sewer line connected to home. ESCUD will need a 2-week notice to schedule inspection. All water and electric must be installed and working in order to test the pump and lines.

Once your application has been approved and tap fees paid you will be issuedapp a Conditional Will Serve to use to acquire your building permit.

Final Will Serve will only be issued after inspection and approval of sewer pump/installation. You will need the Final Will Serve to obtain your Certificate of Occupancy.
